THE

UNITED STATES COIN CO.

Bulletin

Vol. 1. NEW YORK, N. Y., SEPTEMBER, 1914. No. 1.

The BULLETIN is published as an advertising medium for this company and is not a subscription paper, but will be sent free to all persons on our mailing list. It will contain frequent numismatic articles and lists of various coins for sale at fixed prices. Any coins listed will be sent on approval to responsible parties, on receipt of satisfactory references, but preference will be given to cash orders. **The United States Coin Co., 200 Fifth Ave., New York.**

UNITED STATES HALF DOLLARS OF 1794 AND 1795.

Reprinted from John W. Haseltine's "Type Tables."

1. 1794 Wide date; point of star separates the lower curl; the next curl does not quite touch a point of a star; the lowest star on the right has 1 point touching underneath the point of the bust; R. Wreath has 21 berries, 10 on left and 11 on right; a crack runs between D in "United" and first S in "States;" a berry on the outside is opposite E. in "United" and another on outside opposite O in "Of", star not near the Y in "Liberty;" the commonest variety.

2. 1794 Closer date; very similar to No. 1 but the point of lower star is nearer the thick part of the curl and the next star is not so near the next curl; the point of lower star on the right is nearer the point of the bust and the upper star on the right is closer to Y in Liberty; R. Wreath has 19 berries, 9 on left and 10 on right; there are 2 berries (1 on either side of stem) opposite to E. in "United" and none opposite O in "Of;" a leaf points to and nearly touches the extreme point of first S in "States," a leaf points to the edge of I nearest R in "America;" a berry on outside part of wreath opposite C in "America;" excessively rare variety.

4. 1794 Very close date; star very far from Y in "Liberty;" the second star from the bottom has 1 point touching the lowest curl, the next curl is opposite the 2 lower points of the third star from the bottom; the point of the bust points to (without touching) a space between 2 points of the lowest star on the right. ℞ Wreath has 18 berries, 9 on left and 9 on right; only 1 berry, which is on outside part of wreath, opposite E in "United;" the upper leaves in wreath nearly touch below the last S in "States;" a leaf touches the edge of I nearest to C in "America;" very rare variety.

5. 1794 Obverse same as No. 2. ℞ Wreath has 18 berries, 9 on either side; very similar to No. 4 but there are 2 berries, 1 being on inside part of wreath opposite E in "United;" the 2 upper leaves in wreath not so close; the leaf points nearer to the centre of I in "America;" the stems of the wreath much longer than in No. 4; very rare variety.

6. 1794 Obverse same as No. 4. ℞ Same as No. 1 but without the crack; excessively rare variety.

7. 1794 1 point of left star touches the curl a little from the centre towards the right; the next curl terminates a little above a point of the next star; the lower star on the right just barely escapes touching the point of the bust; the star is near the Y as in Nos. 2 and 5. ℞ Same as No. 6; very rare variety.

1. 1795 Wide date; lower curl is nearly perfect and is opposite the space between the 2 lowest stars. ℞ 17 berries in wreath, 9 on left and 8 on right; 1 berry is on the outside of wreath opposite the first stand of N in "United" and 1 on the outside opposite to C in "America;" a berry is on the outside under second stand of A in "States."

2. 1795 Wide date; very similar to No. 1 but the date slightly wider; the 1 and 7 a little farther apart; stars are also a little closer to L and Y in "Liberty." ℞ Wreath has 17 berries, 9 on left and 8 on right; second berry from bottom on the right is nearly merged into the stem; there are 2 berries on each side of inside part of wreath between the eagle's wings and ribbon bows; there is a berry on outside opposite each T in "States;" the second T in "States" is not in proper position, being too low; the lower parts of A and M in "America" join; the R does not touch the eagle's wing.

3. 1795 Close date; position of lower curls and stars very similar to Nos. 1 and 2 but the star is farther from L in "Liberty;" the die is cracked from the edge curving through T and Y in "Liberty," touching lower part of first star on the right and through the second star to the milling; a nearly parallel crack is just under it, extending from the edge through R to the third star; the point of the bust points more directly to a point of the star than to the space between the points. ℞ Wreath has 17 berries, 9 on left and 8 on right, the position of the 2 berries on each side between the eagle's wings and ribbon bows are nearly the same as in No. 2; there is 1 berry on outside opposite first T in "States" and 1 opposite second stand of A in "States;" a berry very near this last on inside part of wreath; A and M in "America" do not join; R touches the eagle's wing; this reverse is the same as Nos. 4 and 15.

4. 1795 Close date; the lowest curl breaks off abruptly, just touching 1 point of lowest star; the point of bust just barely escapes touching the point of the star, and in poor specimens probably looks as if it did; the date is double; one date showing faintly beneath and partly below the proper date; the 5 farther from the bust than in Nos. 1, 2 and 3. ℞ Same as Nos. 3 and 15.

5. 1795 Wide date; point of star pierces lowest curl; point of bust points to space between 2 points of star; a break in the die makes a raised lump between the 5 in date and the lowest star on the right; the second curl from the bottom curves a little below the point of the second star. ℞ 18 berries in wreath, 9 on either side; there are 4 berries on the right, between eagle's wing and ribbon bow; 1 of them only on the outside; part of letter E shows distinctly under A in "States;" the letter R touches eagle's wing.

6. 1795 Obverse same as No. 5. ℞ 16 berries on wreath; 7 on left and 9 on right; there is no berry on outside part of wreath between D in "United" and first S in "States," as in all other known varieties (although in some it is nearly under the D); no berry on outside part of wreath opposite first A in "America," exceedingly rare variety.

7. 1795 Date not quite so wide as in No. 5 and 6; point of star pierces the centre of lowest curl and point of next star touches the outside of second curl from the bottom; very similar to No. 6; ℞ 16 berries on wreath, 7 on left and 9 on right, this has the berry on outside part of wreath near the D in "United;" a berry on outside of the wreath is opposite first A in "America;" there are 4 berries between eagle's wing and ribbon bow on the right, 1 being on outside opposite to C in "America;" A and M in "America" do not touch, the first stand of M being too high; a berry is on inside part of wreath nearly opposite to A in "States."

8. 1795 Close date; lowest curl has 2 points of the star touching it, the next curl curves down and touches the side of point of the star; the point of the bust points between 2 points of the star. R 17 berries, 10 on left and 7 on right; a berry on outside of wreath opposite C in "America" and 1 opposite first stand of N in "United;" no berry on outside opposite first A in "America," a cluster of 3 berries, 2 of them on inside part of wreath are opposite first S in "States;" the end of one of the stems touches last A in "America."

9. 1795 Close date; lowest star pierces the curl; the next star nearly touches the outside of next curl; the lowest star on the right has 1 point very close (a little above) the point of the bust and there is at this point a very small lumpy fracture in the die, extending upwards. R 18 berries, 9 on either side; a berry on outside part of wreath opposite the space between M and E in "America," another berry very close to it on inside part of wreath; there are only 2 berries, 1 outside and 1 inside of wreath opposite "States."

10. 1795 Obverse same as No. 2. R 17 berries, 9 on left and 8 on right; very different from the reverse of No. 2; there are 3 berries on the left, between eagle's wing and ribbon bow 1 being on outside part of wreath opposite first stand of N; there are only 2 berries on the right between eagle's wing and ribbon bow, both being on inside part of wreath; there are 2 leaves on outside opposite first T and only 1 leaf opposite second T in "States." Scarce variety.

11. 1795 Close date; point of star pierces the lowest curl, which is very weak at this part and looks like 2 hairs; the point of bust points to the space between 2 points of the star; there is a crack in the die, running from under the bust to the milling, between the 5 in date and lowest star on the right; another small crack unites the upper and lower parts of Y in "Liberty" on the side near the star; R 17 berries on wreath, 9 on left and 8 on right, there are 3 berries on left, between eagle's wing and ribbon bow; 1 only on the outside nearly opposite I in "United;" there are 4 berries on the right between the eagle's wing and ribbon bow; 1 only on the outside nearly opposite to the tail of R in "America;" A and M do not join.

12. 1795 Close date; 1 point of star pierces through the centre of lowest curl; the lowest star on the right has 1 point touching the bust underneath. R 17 berries, 9 on left and 8 on right; there are 3 berries on the right, between the eagle's wing and ribbon bow, all being on the inside part of wreath; there is no berry on outside part of wreath opposite first A in "America;" A and M in "America" just touch at lower part. Rare variety.

13. 1795 Close date; point of star pierces lowest curl; the next curl turns downwards near to and a little below a point of next star; this obverse is very similar to Nos. 5 and 6, but date is much closer and the star is nearer to Y in "Liberty;" ℞ 17 berries, 8 on left and 9 on right; this is the only reverse I have ever seen that having the 17 berries has 8 on left and 9 on right; excessively rare variety.

14. 1795 Obverse same as No. 13; ℞ 16 berries, 7 on left and 9 on right; this has the berry on outside part of wreath after and near D in "United," but no berry on outside part of wreath opposite first A in "America;" a point of leaf touches the first stand of M; there are 3 berries between eagle's wing and ribbon bow on the right; 1 on outside opposite the space between I and C; rare variety.

15. 1795 Short bust; close hair; a much smaller head than any of the preceding; the lower curl is small and formed of 2 locks of hair (the upper lock being thick) and is not near the star; the lower star on the right is distant from the point of the bust, which points to the space between 2 points of the star; the B in "Liberty" is very small; ℞ Same as No. 3. Very rare variety.

16. 1795 Obverse same as No. 7. ℞ 16 berries, 8 on left and 8 on right; no berry opposite first A in "America;" A and M in "America" touch at lower part; a point of leaf is joined to D in "United;" E in "America" touches eagle's wing, but the letter R does not touch it; no berry on outside near O in "Of;" scarce variety.

17. 1795 Obverse same as No. 12. ℞ 16 berries, 8 on left and 8 on right; a berry on outside of wreath near O in "Of;" E in "America" does not touch eagle's wing, but R does; A and M in "America" touch at lower part; a berry is on outside part of wreath nearly opposite to A in "States;" rare variety.

18. 1795 Very similar to No. 9 but in this the point of star points directly to the point of the bust and barely escapes touching it; the second curl from the bottom on the left is in the same position as No. 9 but is slightly farther from it; the word "Liberty" in this is a trifle closer to the head and the lower star on the left touches the curl more to the left; a slight break in the die extends from the second curl from the bottom to a point nearly between the 2 lower stars. ℞ Same as No. 11; excessively rare.

19. 1795 Small head, a trifle larger than No. 15; the fillet is bound on the head very tight, making 2 bunches of hair on top of the head very prominent; the lowest star on the left has 1 point pointing directly to the centre (without touching) of lowest curl; the lowest star on the right has 1 point pointing almost directly to the point of the bust; a crack in the die runs from above the upper star on the right to the bridge of the nose; another runs from under the bust to the milling, just grazing figure 5. ℞ Same as Nos. 3, 4 and 15; extremely rare variety.

20. 1795 Obverse same as No. 1. Ꝛ Same as No. 8; in this reverse a piece is broken out of the die from the edge to the tops of A and M in "America." Extremely rare variety.

21. 1795 Obverse same as Nos. 1 and 20. Ꝛ 18 berries, 10 on left and 8 on right; 1 small berry on outside of the wreath, opposite R. in "America;" and another on inside part of wreath, opposite D in "United;" both of these berries are nearly merged into the stem; extremely rare variety.

22. 1795 Obverse same as No. 14. Ꝛ 17 berries, 7 on left and 10 on right; this is the only variety I have seen that has 7 berries on the left and 10 on the right of wreath; very scarce variety.

23. 1795 Obverse same as No. 4 (double date); Ꝛ 16 berries, 9 on left and 7 on right; there is a bunch of three leaves under and pointing up to the eagle's wings; this is the only reverse in which this occurs, all the others having 2 leaves; a crack in the die runs from the edge close to first S in "States" across to the top of eagle's breast; extremely rare variety.

24. 1795 Obverse small head, similar to No. 15, but the lower curl has 1 point of the star piercing it, and point of lower star on the right points just above the point of the bust; Ꝛ 18 berries, 9 on either side; this differs from Nos. 5 and 9, having only 2 berries on either side between eagle's wing and ribbon bow, all being on inside part of wreath; E and R in "America" both touch eagle's wing; rare variety.

25. 1795 Obverse same as No. 1. Ꝛ 19 berries, 9 on left and 10 on right; 2 berries between eagle's wing and ribbon bow on left, both on inside of wreath, and 4 on the right, 2 of them being on outside part of wreath, 1 of the latter being nearly merged into the stem; first S is too far from T in "States;" excessively rare variety; have only seen two of them; this is the only variety having 19 berries.

26. 1795 Obverse similar to No. 8, with 2 points of the star touching the curl, but the next curl does not touch the side of the point of star as in No. 8; the point of the bust is nearer (in this) to the point of the star; under this star there is a minute fracture of the die at 1 of the points. Ꝛ Same as Nos. 8 and 20. Rare variety.

27. 1795 Obverse similar to the varieties that have 1 point of star piercing the curl, as this has, but the next curl terminates abruptly and points directly to the point of the second star from the bottom and is near to it without touching; the point of the bust not so near the star on the right as in either Nos. 7 or 16; there is a slight crack running from the bust through the 7 in date; Ꝛ Same as Nos. 11 and 18. Very rare variety.

28. 1795 Obverse same as No. 1. Ꝛ 16 berries, 8 on either side; there are 2 berries, 1 on each side on stem nearly opposite to O in "Of" and a berry on outside part of wreath opposite A in "America;" there are 3 berries between eagle's wing and ribbon bow on the left, 1 on the outside nearly opposite I and 2 berries on the right, both on inside part of wreath; this die is cracked, running from the milling across the eagle and through the T in "United." Very rare variety.

29. 1795 Obverse almost like No. 18 but the point of the star pierces farther through the curl and the point of lowest star on the right touches the point of the bust, while in No. 18 it does not quite touch. Ꝛ 16 berries, 7 on left and 9 on the right, differs very much from Nos. 6, 7, or 14; there are 2 berries on the left between eagle's wing and ribbon bow, both on inside part of wreath; there are 4 berries on the right between the same points, 1 being on the outside part of wreath opposite the space between R and I in "America;" a leaf runs down almost midway between I and C in "America," a leaf touches the last A in "America" between the 2 stands; die cracked from last S in "States" through "Of" to the milling. Excessively rare variety.

30. 1795 Obverse same as No. 9. Ꝛ Same as No. 11.

31. 1795 Obverse same as No. 8. Ꝛ 3 berries between the eagle's wing and ribbon bow on the left, as in Nos. 8, 10, 20 and 26, but in this case the berry on outside part of wreath is not opposite to or near to N in "United" but is more towards the U and a leaf is between it and the letters, said leaf extending farther beyond the berry than in any of the others; excessively rare.

32. 1795 Obverse similar to Nos. 9, 18, 29 and 30; the point of star touching the point of bust, but in the point of the lower star on the left pierces the curl more in the centre than in No. 18 and the next curl is not so near the point of the next star as in Nos. 9, 29 and 30. Ꝛ Same as No. 11. Excessively rare.

We would be pleased to hear from any collectors having varieties not listed here and will give description of such varieties in the BULLETIN.

HALF DOLLARS.

Numbered as per preceding list.

1794	No. 1 Very fine, sharp impression, an exceptional specimen of this rare date.	$20.00
1794	No. 1 Fine, much above the average.	9.00
1794	No. 1 Very good.	5.00
1794	No. 1 Good.	3.75

ANNOUNCEMENT.

An exhaustive treatise and catalog of Confederate and Southern State Currency is about to be published by Mr. Wm. West Bradbeer, who is generally recognized as the foremost authority on the subject.

The work embraces Historical, Biographical and Financial data of great interest in addition to a descriptive list of the various types and varieties. A degree of rarity based on facts and experience is also assigned to each type and variety.

Among the salient matters published for the first time are:

1. The amount of currency authorized under the various acts passed.
2. The exact number of rare notes issued as attested by the official records.
3. A verbatim transcript of many acts and resolutions passed by the Confederate Congress relating to currency and other matters of more or less importance.
   a. Making the acceptance of Confederate Currency at par obligatory in the South.
   b. Drastic measures adopted to correct the redundancy of the currency.
4. Origin and description of the watermarked paper used for printing the notes.
5. Southern State Currency is accorded like attention. This will enable collectors to know the different issues and varieties, and enable them to form complete collections.
6. Plates of many types of both Confederate and Southern State notes will be shown.

Such a publication should be in the library of every student of American history and since it will become the standard work on the subject, Numismatists will find it indispensable.

The book will be octavo, cloth, about 200 pages, and about 50 illustrations.

PRICE: $3.50.

Orders may be sent to the United States Coin Co.

JUST PUBLISHED.

The Dated European Coinage Prior to 1501.

BY ALBERT R. FREY.

THE
UNITED STATES COIN CO.
Bulletin

Vol. 1. NEW YORK, N. Y., OCTOBER, 1914. No. 2

The BULLETIN is published as an advertising medium for this company and is not a subscription paper, but will be sent free to all persons on our mailing list. It will contain frequent numismatic articles and lists of various coins for sale at fixed prices. Any coins listed will be sent on approval to responsible parties, on receipt of satisfactory references, but preference will be given to cash orders. **The United States Coin Co., 200 Fifth Ave., New York.**

AUCTION SALE OF OCTOBER 15th.

Special attention is called to our sale of the above date which includes the very extensive collection of Canadian Coins formed by Mr. Wm. E. Hidden. The entire series is well represented, containing several side view half pennies, Montreal bridge tokens, many rare sous and several very rare varieties of other pieces. The collection of Mr. J. L. Howland to be sold at the same time contains some very choice Colonial coins, cents and half cents. If you have not already received a Catalogue do not fail to send for one.

THE UNITED STATES COIN CO.

Bulletin

Vol. 1. NEW YORK, N. Y., NOVEMBER, 1914. No. 3.

The BULLETIN is published as an advertising medium for this company and is not a subscription paper, but will be sent free to all persons on our mailing list. It will contain frequent numismatic articles and lists of various coins for sale at fixed prices. Any coins listed will be sent on approval to responsible parties, on receipt of satisfactory references, but preference will be given to cash orders. **The United States Coin Co., 200 Fifth Ave., New York.**

THE WILLIAM E. HIDDEN COLLECTION. OF CANADIAN COINS.

The fine collection of Canadian coins formed by Mr. W. E. Hidden was sold by us on October 15th together with the collection of U. S. coins belonging to Mr. J. L. Howland. The coins all brought very fine prices and many visitors from out of town were present at the sale including two or three Canadian collectors. The following were some of the coins which brought high prices.

486	1825 Cent. Unc.	25.00

—O—

THE FOSTER LARDNER COLLECTION OF UNITED STATES CENTS.

Mr. Foster Lardner of Providence, R. I., has placed in our hands for sale at auction his magnificent collection of United States Cents. This collection represents the efforts of several years to secure the choicest possible specimens and consists of about one hundred and fifty pieces all of which are in beautiful condition. There are exceptionally fine and rare specimens of 1793, 94, 95, 96, 97, 99, 1805, 06, 11, 21, 23 and we feel that the collection should be of very special interest and importance to all collectors of this series as it will undoubtedly be the finest sale of Cents of this season.

In addition to Mr. Lardner's Cents we will also have in the same sale an extensive collection of Washington, Lincoln and Lafayette Medals from an old New England collection. There are a large number of varieties among these medals which are seldom offered for sale and we hope collectors of this series will try to be present and examine them.

We will issue a special edition of the catalogue of this sale containing four plates of Mr. Lardner's Cents which will be ready shortly after the regular edition, price $1.00, postpaid. This sale will be held either the latter part of November or the first week in December.

—O—

CATALOGUE OF COINS FOR SALE.
